Category CONSUMER PRODUCTS - DESIGN

Company: **ALCON/GRAMM Technik/
STYLIQ-Ingenieurburo**

Country: **Germany**

Product Name: **Alusatin-Finish**

"ALUSATIN-Finish" is ideal for household-application:

- insensitive even to fingerprints, due to a so called "LOTUS-Effect"
- dielines, welding-lines and defects in texture or microstructure become invisible.

The application on aluminium-profiles for base-board-trunking in offices as well as private houses may open a new market for thousands of kilometres of profiles. A new business for the aluminium-extrusion-plants and specialised aluminium-surface treatment companies.

Company: **Pilipili**

Country: **Belgium**

Product Name: **Finitube**

The Finitube is a professional tool, designed for a fast, perfect finish for every type of tube, cylinder of piping construction. It is a brand-new redesign with an attractive styling and a lot of new advantages for the user.

The formal details of the joints and the smooth curved surfaces give this aluminium product a sophisticated look, usually unexpected for traditional milling processes.

This result contains a noticeable improved ergonomics, aesthetics, durability and functionality.
